PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 3+ years of experience building scalable SaaS products and mobile applications. Proven expertise in architecting multi-tenant systems, integrating payment gateways (Stripe), and implementing real-time features using React, React Native/Expo, Node.js, and cloud technologies. Strong background in DevOps practices including Docker, containerization, and server deployment. Demonstrated ability to reduce API response times by 35%+ through Redis caching and optimize performance for 500+ concurrent users.

PROFESSIONAL EXPERIENCE

Naxape | Faisalabad, Pakistan

2025 - Present

Senior Software Developer

- Architected a multi-tenant SaaS platform featuring a Super Admin Portal to onboard companies, provision feature modules dynamically, and manage system-wide limits.
- Integrated Stripe for end-to-end subscription management, enabling tiered pricing plans and secure tenant subscriptions.
- Designed and deployed a custom Local File Server for secure hosting of sensitive documents and user uploads.
- Built tenant settings portal allowing companies to configure custom SMTP settings for white-labeled email delivery.
- Integrated Google Maps API for intelligent route optimization and dispatch coordination.
- Engineered cross-platform mobile driver app with React Native/Expo featuring offline caching, QR scanning, and digital signatures.
- Built responsive dispatcher dashboard using React, TailwindCSS, and Radix UI with real-time KPIs and live map tracking.

Freelance

2022 - 2024

Full-Stack Developer

- Delivered 5+ production-ready applications with 90% client satisfaction rate using Agile workflows.
- Developed AI-Powered Attendance System using Python, OpenCV, and face_recognition for real-time face detection.
- Built full-stack Uber Clone with real-time GPS tracking for 500+ concurrent users, optimizing performance by 40%.
- Created Instagram Clone with real-time comments (Socket.io) and native-style animations using Framer Motion.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2022 - 2026

University of Central Punjab (UCP), Faisalabad | CGPA: 3.6

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, React Native, Redux Toolkit, Next.js, Tailwind CSS, GSAP, Framer motion

Backend: Node.js, Express.js, Nest.js, Socket.io, RESTful APIs, JWT, Redis

Databases: MongoDB, PostgreSQL, MySQL, Firebase

Cloud & APIs: Stripe API, Google Maps API, OpenAI API (DALL-E), OpenCV

DevOps: Docker, AWS (Amplify), Container Orchestration, Server Deployment

PROFESSIONAL PROJECTS

Multi-Tenant Logistics SaaS Platform | Node.js, React Native, Stripe, Maps

- Designed comprehensive B2B SaaS ecosystem with Super Admin dashboard, dispatcher portal, and mobile app, featuring live tracking and analytics reporting.

AI-Powered Attendance System | Python, OpenCV

- Automated manual attendance processes via real-time face detection with robust single and multi-user recognition capabilities.

Uber Clone Application | React Native, Node.js, MongoDB

- Built scalable ride-sharing platform for 500+ concurrent users, optimizing performance by 40% via code-splitting and DB aggregation pipelines.
